

## Marco Fantozzi short CV

March 2016

**Marco Fantozzi** is a leading NRW expert with over 28 years international experience in all aspects of NRW reduction work. He is Managing Director of Studio Marco Fantozzi ([www.studiomarcofantozzi.it](http://www.studiomarcofantozzi.it)), a company specialized in water loss management. In 2014 Marco has been invited to join the IWA Fellows in recognition of the valuable contributions he has made to the International Water Association and has been nominated IWA water loss regional representative for South East Europe. He actively promotes the application of the IWA practical approach to water loss management methodology in Italy and internationally. He was the Team Leader for IWA WLSG of the 'Night Use components of Minimum Night Flows' Initiative, in charge of analysis of minimum night flow components.

Marco holds a MSc degree in Civil Engineering and a Master in Business Administration. As a technical trainer, he participated in more than 50 training courses on water loss management and participated in more than 50 international conferences presenting more than 100 papers on these matters including economic management of water losses and ELL calculation.

He is an expert evaluator for the European Commission for the Key Action "Sustainable Management and Quality of Water". Marco holds a MSc degree in Civil Engineering and a Master in Business Administration. His career included being manager responsible for water networks in ASM Brescia (now A2A), one of the most advanced public utility companies in Italy. Marco Fantozzi is a member of drafting group WG PoM E U of the WFD (Water Framework Directive) CIS (Common Implementation Strategy) which in October 2014 delivered the EU Reference Document: Good Practices on Leakage Management.

He was the organiser of the IWA Water IDEAS Conference on efficient management of water distribution systems, held in Bologna Italy in October 2014.
