

Prof. Ricardo Trigo

Ricardo Trigo is an Assistant Professor at University of Lisbon and Group leader at the Institute Dom Luis (IDL), Faculty of Sciences, University of Lisbon. He has published extensively (about 145 papers in ISI journals with more than 5000 citations, h-index 33) in complementary areas of research, namely: evaluation of different types of weather driven natural hazards with particular emphasis to floods, droughts, landslides, heatwaves and wildfires. In 2011 he edited the book "Hydrological, Socioeconomic and Ecological impacts of the North Atlantic Oscillation in the Mediterranean Region" published by Springer.

Awards and Prizes

1 International Journal of Climatology Award (2008) awarded by the Royal Meteorological Society (UK) and endowed by John Wiley publishers.

2 International Meteorological Prize Eduard Fontserè (2013) awarded by the Catalan Association of Meteorology (2013) for participating in the paper "Trends and extremes of drought indices throughout the 20th century in the Mediterranean" published in the journal Natural Hazards and Earth Sciences.
