

## **Ronen Shechter**

**Founder and CTO in Emefcy since 2008.**

Emefcy is a global leader in membrane aerated biofilm reactors (MABR) and electrogenic bio-reactors (EBR) for wastewater treatment.

Previously, in 2001, founded AqWise and was CTO there for 7 years. AqWise developed and sells its own MBBR and IFAS processes for wastewater treatment.

Ronen began his career with 10 years of water and wastewater R&D in TAMI – the ICL Institute for R&D.

He is a chemical engineer, graduated in 1991 cum laude from the Technion – Israel Institute of Technology.

### **Italian**

Ronen Shechter è, dal 2008, fondatore e responsabile tecnico di Emefcy, azienda leader in “MABR” (Membrane Aerated Biofilm Reactor) e “EBR” (Electrogenic Bio Reactors) per il trattamento delle acque reflue.

Nel 2001 fondò “AqWise”, che produceva e sviluppava “MBBR” (reattore a biomassa adesa a letto mobile) e IFAS (Integrated Fixed Film Activated Sludge) pprocessi per il trattamento delle acque reflue.

Si è laureato nel 1991 con lode all’Istituto di Tecnologia di Israele.
